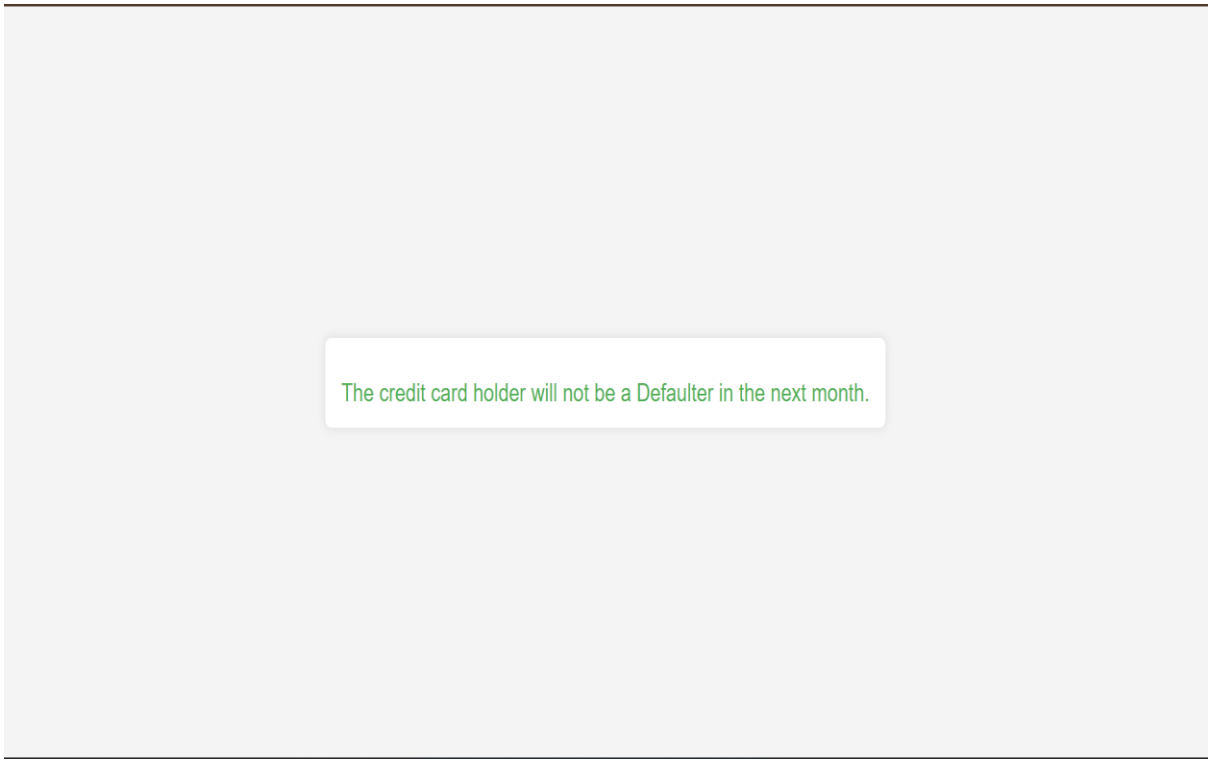
Payment Amount for May (in dollars)

Payment Amount for April (in dollars)

Predict

3. After clicking on the predict button, it will take us to the result page. If the customer is not a defaulter, it will show that the credit card holder will not be a defaulter in the next month.



4. Else the result page will show that the credit card holder will be a defaulter next month.

The credit card holder will be a Defaulter in the next month.
